

The True Conservative Choice

JOHN McCay

US CONGRESS

ECONOMY and TAXES

The United States is in so much debt to foreign powers that our economy is in danger of collapse. The political establishment in Washington does not have the courage to let the American People know the truth. The Federal Reserve makes this worse by manipulating markets and our financial system while debasing our currency. These problems can be alleviated. Here are some of the ideas that I subscribe to. 1) Smaller Government. 2) Cut Spending. 3) Deregulate Business. 4) Privatization of Public Programs.

In addition to the changes that I propose it is obvious the current tax system is unfair and too complicated and must be replaced. The tax burden on Americans is entirely too heavy and hard working families should be able to keep more of their money. The fair tax is a perfect transition because it will replace the Internal Revenue Code with a consumption tax. I believe this will benefit all Americans. Under the fair tax system, the IRS will be abolished.

Let's Take Back Our Country!

On November 4th 2008 you can help do just that!
