

Political Platform of John McCay III

Support Smaller Government

We need to put the role of the Federal Government back in its place.

Fight Illegal Immigration by Securing our Borders

If we remove the incentives and tighten security we will halt this invasion.

Protect Veteran's Rights and Benefits

We can no longer neglect those who risk everything in service to our Great Nation.

Protect our 2nd Amendment Rights

Gun laws only help criminals and gun ownership is not about hunting.

Support our Military

I support a strong all volunteer military. Our military men and women deserve the best equipment and benefits to do their jobs. They are putting their lives on the line for us.

Stop the Out of Control Spending in DC

We must establish sound monetary policies to balance our budget and cut spending. We cannot print money out of thin air.

Help Attract New Jobs

As a facilitator, I can bring the right people to the table to have a positive economic impact within the 4th district.

Protect and Defend the Constitution and Our Constitutional Rights

We should respect the rule of law and we should never trade liberty for security.

Continue Hurricane Katrina Recovery

John supports a revitalization package to stimulate the local economy.

Defend the Unborn

I will always fight for the innocent and defend the sanctity of life.

Lower Taxes

American taxpayers work extremely hard for their money. The tax burden is way too heavy on taxpayers. It is time taxpayers keep more of their hard earned money in their "pursuit of happiness."
